Ex Parte Quayle

1. This application is in condition for allowance except for the following formal matters:

In the specification:

In the specification page 11, line 19, the disclosed “a male” should be corrected to “a mail” to correspond with the mail information disclosed in fig. 2B.

In the claim:

- a. In claim 1, line 6, the disclosed “user ID that is set by the user” should be corrected to “user ID that is inputted by the user” because as disclosed in the specification page 12, line 5-6, the user does not appear to set the ID. The specification just teaches that the user inputs the ID.
- b. In claim 14, lines 5-7, the claimed “supplies a position data of the printer and data to designate destination data, which corresponds to a user ID set by the user that is stored in a prescribed area to the server” should be corrected to “supplies to the server a position data of the printer and data to designate destination data, which corresponds to a user ID inputted by the user and which is stored in a prescribed area”.
- c. In claim 14, line 8, the claimed “comprising a position data” should be corrected to “comprising the position data” to show proper relationship between data supplied from the “data supply unit” in claim 14, line 6 and the “printer unit”.

Allowable Subject Matter

2. Claims 1-11, 14-22 would be allowable if rewritten or amended to overcome the claim objections set forth in this Office action.

3. The following is an examiner's statement of reasons for allowance:

Prior arts of record does not disclose an image forming system in which a portable terminal connects to a network to transmit a desired destination data to a server upon an operation of a user; the server stores the received destination data in an area corresponding to the user ID inputted by the user of the portable terminal; a printer connected to the network to receive map data comprising the position data of the printer as a starting point and the destination data that is stored in the prescribed area corresponding to the user ID as an ending point; the printer prints out a map image on a recording medium based on the map data.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
